CONFERENCE OVERVIEW

Skill preparation and planning for health care transition for children and youth with special health care needs is inadequate. Less than 50% of families nationwide indicate that their children with special health care needs have received the services necessary to make appropriate transitions to adult health care, work, and independence. One of the major hurdles to receiving this care is the lack of a physician workforce trained to provide the services necessary to make the health care transition. There is a strong need for physicians to have the knowledge and skills to provide the services needed to facilitate a successful transition from pediatric to adult-based care and services. Because of increased awareness of transitioning to adult-based care, clinicians are required to update their knowledge of the changing strategies for integrating emerging adult-based care into practice.

For all conference participants, there will be a discussion of the legal issues involved in health care transition, as well as time to meet and talk with faculty, to exchange ideas among participants, and to share knowledge and information about how best to plan for a successful transition to adulthood.

TARGET AUDIENCE

Physicians in internal medicine, family practice, pediatrics, psychiatry, and physiatry; other health care providers including psychologists, social workers, nurses, dietitians, case managers, counselors, and primary care providers; and youth and young adults who have a chronic illness or disability and their parents or guardians.

OBJECTIVES

At the conclusion of the conference, participants should be able to:

• Describe strategies for setting up a transition program.
• Identify barriers and successful strategies when placing youth and young adults with special health care needs, behavioral health, and intellectual disabilities into employment, housing, and available medical transition services.
• Discuss strategies for setting up a youth and young adult advisory board to assist with transition program development.
• Describe successful methods for discussing reproductive health topics with youth and young adults with intellectual delays, and/or behavioral, emotional or psychological disorders.
• Develop a practice-based framework for implementing health care transition services.

EDUCATIONAL METHODS

Lecture ▪ Meet the Faculty Sessions ▪ Breakout Sessions ▪ Question and Answer Sessions

EVALUATION

A questionnaire will be used to evaluate address program content, presentation, and possible bias.

DISCLOSURE POLICY

To meet the requirements of the Accreditation Council for Continuing Medical Education (ACCME), it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of the CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, current, and objectively presented. Specific disclosure will be made to the participants before the educational activity.

Registration for, attendance at, and/or participation in this activity constitutes acknowledgment by the registrant/attendee/participant that photos may be made of the conference events and constitute agreement by the registrant/attendee/participant that Baylor College of Medicine may use and distribute in its publications, on its website, and in the conference proceedings, such photos that include the image of the registrant/attendee/participant. By participating in the activity, the registrant/attendee/participant acknowledges that he/she agrees to these stipulations. Audio or videotaping is prohibited without written permission from the Activity Director and the Office of Continuing Medical Education, Baylor College of Medicine, Houston, Texas.

FEE, REGISTRATION AND CONFIRMATION INFORMATION

Refer to the registration form for the fee schedule. Your registration will not be processed until payment is received. Your registration will be confirmed. If you have not received confirmation at least 5 business days before the activity start date, contact the Office of Continuing Medical Education (OCME) immediately.

A limited number of scholarships are available for CYSHCN and their parents or guardians. For complete details, please contact Mary Jo Miller at MaryJo.Miller@txp2p.org or Laura J. Warren at laura@txp2p.org.

If you plan to register on site, contact the OCME at least 24 hours in advance to confirm activity status and space availability.

The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

To register/pay for the conference only, visit our website at BaylorCME.org/CME/1546 and follow the instructions.

CANCELLATION/REFUND POLICY

Requests for registration refunds must be in writing and received by the OCME at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a $50 administrative fee to be deducted from the paid registration fee to cover guarantees and other expenses.

Requests should be emailed to cme@bcm.edu or faxed to 713.798.7955.

The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form and again in writing. If an activity is cancelled, the OCME’s liability is limited to the paid registration fee. Note: If the registration payment was made by check, a Social Security number is required to process the refund.
OVERVIEW

The 9th Annual Health Care Transition Research Consortium Symposium features research presentations in the emerging field of health care transition (HCT). A variety of research topics of interest to researchers, clinicians, policymakers, parents, youth, and emerging adults are presented. Topics include testing of HCT models of care and programs, the HCT needs and experiences of adolescents, emerging adults and families, and provider topics pertaining to pretransition and posttransition services and training. Poster sessions on HCT research will enable direct dialogue with researchers, and plenary sessions will address interdisciplinary perspectives pertaining to HCT education and curriculum development and the creation, maintenance, and evaluation of HCT programs.

REGISTRATION

Registration is required for all participants. The fee is $75 for all participants.
