Needs Statement
Psychiatrists need the latest evidence-based recommendations for clinical decision making, as well as practical information for the assessment and treatment of disorders commonly encountered in practice. This critical need is supported by the 2008 Institute of Medicine (IOM) report on evidence-based medicine. The IOM report indicates a widening gap between a clinician's cognitive capacity and the number of facts necessary to consider in a single clinical decision. The topics to be presented at the course will focus on selected high-priority clinical issues which will help to address this growing challenge.

Target Audience
This activity is designed for specialists in psychiatry and may also be of interest to other health care and mental health professionals.

Objectives
At the conclusion of this activity, participants should be able to:

- Identify appropriate treatment strategies for those presenting with Gambling Disorder.
- Apply a sexual health model as a treatment intervention for compulsive and addictive sexual behavior.
- Discuss the risks and benefits of tobacco control measures and tobacco harm minimization strategies, including electronic cigarettes.
- Recognize the signs and symptoms of Internet addiction, and identify treatment strategies specific to this form of addiction.
- Distinguish the components of working memory and the sequential maturation of working memory during adolescent development in order to recognize the potentially harmful impact regular marijuana use has on the developing brain during adolescence.
Educational Methods

- Lecture

Evaluation

Evaluation by questionnaire will address program content, presentation, and possible bias.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 7.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Fee, Registration and Confirmation Information

Refer to the registration form for the fee schedule. Your registration will not be processed until payment is received. Your registration will be confirmed. If you have not received confirmation at least five business days before the activity start date, contact the Office of Continuing Medical Education (OCME) immediately at CME@bcm.edu or call 713.798.8237.

If you plan to register on-site, contact the OCME at least 24 hours in advance to confirm activity status and space availability. The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

To register/pay online visit the activity website at BaylorCME.org/CME/1492 and follow the instructions.

Cancellation/Refund Policy

Requests for registration refunds must be in writing and received by the OCME at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a $50 administrative fee deducted from the registration fee paid to cover guarantees and other expenses. Requests should be mailed to the OCME or faxed to 713.798.7955.

The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form, followed by written notification. If an activity is cancelled, OCME's liability is limited to the registration fee paid. Note: If payment is made by check, a social security number is required to process the refund.

Disclosure

In order to meet the requirements of the Accreditation Council for Continuing Medical Education it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of a CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, and objectively presented. Specific disclosure will be made to the participants prior to the educational activity.
FRIDAY | OCTOBER 10, 2014
