| 3:30 | Adjourn                                                             |
Breast cancer is the most common female cancer in the United States. Based on the most recent year for which statistics are currently available from the National Center for Health Statistics, Centers for Disease Control and Prevention, it is estimated that 178,480 new cases of invasive breast cancer will be diagnosed among women in 2007, as well as an estimated 62,030 additional cases of in situ breast cancer. In addition, approximately 40,460 women are expected to die from breast cancer.

A multidisciplinary approach among the involved healthcare providers is required to maximize the therapeutic options and streamline coordination of care for patients with suspected or diagnosed breast cancer. Primary care providers and obstetricians/gynecologists are an essential part of a patient’s access to appropriate care and will benefit from an educational program to help them keep abreast of the latest information about the diagnosis, treatment, and management of breast cancer, including when it is appropriate to refer his/her patient to a comprehensive breast care center for diagnostic assessment and follow up. In addition to the topics on breast surgery and medical oncology designed for both radiologists and non-radiologists, the course will also provide radiologists with in-depth coverage on breast magnetic resonance imaging (interpretation, malignant and high risk lesions, benign findings, and guided biopsy).

**TARGET AUDIENCE**
Primary care physicians; obstetricians/gynecologists; radiologists; nurse practitioners; physician assistants

**OBJECTIVES**
At the conclusion of the activity, participants should be able to:
- Discuss the current guidelines for breast imaging using mammography and ultrasound for the screening and diagnosis of breast cancer.
- Discuss the clinical indications for and applications of breast MRI examinations.
- Counsel breast cancer patients about surgical treatment options, e.g., breast conservation vs. mastectomy, breast reconstruction.
- Evaluate the medical therapies for the treatment of breast cancer.
- Promote avenues by which primary care providers and obstetricians/gynecologists can work effectively with radiologists, surgeons, and medical oncologists to optimize the care of their patients with breast cancer.

**EDUCATIONAL METHODS AND EVALUATION**
Lectures ♦ Case Presentations ♦ Panel Discussions ♦ Syllabus ♦ Question & Answer Sessions
Evaluation by questionnaire will address program content, presentation, and possible bias.
ACCREDITATION/CREDIT DESIGNATION

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 6.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

In order to meet the requirements of the Accreditation Council for Continuing Medical Education it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of a CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, and objectively presented. Specific disclosure will be made to the participants prior to the educational activity.

CONFERENCE LOCATION AND PARKING

Baylor College of Medicine | The auditorium is located on the 3rd floor of the Alkek building on Baylor’s main campus. Parking is conveniently located in Garage 4 of the Texas Medical Center. Please bring your parking ticket with you to receive your validation.
One Baylor Plaza |
Alkek Building – N315 |
Houston, TX 77030 |

Visit our web site located at www.BaylorCME.org for information about other Baylor College of Medicine CME activities.

CANCELLATION/REFUND POLICY

Requests for registration refunds must be in writing and received by the Office of Continuing Medical Education (OCME) at least ten business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a $50 administrative fee deducted from the registration fee paid to cover guarantees and other expenses. Requests should be mailed to the OCME or faxed to 713.798.7955.

The OCME reserves the right to cancel activities, not less than ten business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form followed by written notification. If an activity is cancelled, OCME’s liability is limited to the registration fee paid. Note: If payment is made by check, a social security number is required to process the refund.

FEE, REGISTRATION AND CONFIRMATION INFORMATION

Refer to the registration form at right for the fee schedule. Your registration will not be processed until payment is received. If you have not received confirmation at least five business days before the activity start date, contact the OCME immediately.

If you plan to register on-site, contact OCME at least 24 hours in advance to confirm activity status and space availability. The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

To register/pay online visit the activity web site at www.BaylorCME.org/1408 and follow the instructions. ONLINE REGISTRATION DEADLINE IS FRIDAY, SEPT. 5, 2008.

Faculty, topics, program schedule, and credit are subject to change. Audio or videotaping is prohibited without written permission from the Activity Director and the OCME, Baylor College of Medicine, Houston, Texas.
