14th Innovations in Urologic Practice

September 28–30, 2006
Thursday afternoon, Friday morning, and Saturday morning
at the Inn at Loretto, 211 Old Santa Fe Trail, Santa Fe, New Mexico
Activity Director: Seth P. Lerner, MD
Activity Co-Director: Lawrence J. Cisek, Jr, MD, PhD

Needs
The rapidly changing healthcare environment and pace of technologic innovations in medicine require urologists to keep abreast of state of the art diagnosis and management of urologic disease. This annual program focuses on current controversies and innovative diagnostic and treatment strategies for some of the most common urologic problems faced by clinical urologists.

Objectives
At the conclusion of the activity, the participant should be able to:
- Explain the physiology and anatomy of outlet obstruction in women; the use of videourodynamic studies in complex reconstruction; and the role of botulinum toxin in the management of patients with voiding dysfunction
- Describe the role of complementary and alternative medicine in prostate cancer and new aspects of surgical and multidisciplinary management of clinically localized and locally advanced disease
- Apply a multidisciplinary management approach for the patient with invasive bladder cancer and understand the biology of variants of bladder cancer and the unique management strategies associated with them
- Incorporate state of the art techniques of laparoscopy into their minimally invasive surgery practice and apply these as well as non-invasive ablative strategies for managing small renal masses
- Discuss the impact of growth hormone and other physiologic changes in the aging male and the interrelationship of hypercholesterolemia, hypertension, and erectile dysfunction.
- Describe diagnostic and management algorithms for common pediatric urology problems

Educational Methods
Lectures ■ Syllabus ■ Case Presentations ■ Video Presentations ■ Question and Answer Sessions

Target Audience
Urologists, physician assistants, nurses

Evaluation
Evaluation by questionnaire will address program content, presentation, and possible bias.

Accreditation/Credit Designation
Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Baylor College of Medicine designates this educational activity for a maximum of 15.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

In order to meet the requirements of the Accreditation Council for Continuing Medical Education it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of a CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, and objectively presented. Specific disclosure will be made to the participants prior to the educational activity.

University of New Mexico School of Medicine, Albuquerque, New Mexico
Michael S. Davis, MD
Assistant Professor
Division of Urology
Chief of Urology
Veteran’s Administration

Roy G. Smith, PhD
Professor
Department of Molecular and Cell Biology
Director, Huffington Center on Aging

Larry I. Lipshultz, MD
Professor
Lester and Sue Smith Chair in Reproductive Medicine
Chief, Division of Male Reproductive Medicine and Surgery
Medical Director
Laboratory for Male Reproductive Research and Testing

Victor W. Nitti, MD
Associate Professor and Vice Chairman
Department of Urology
New York University Medical Center
New York, New York

Anthony Y. Smith, MD
Professor and Chief
Division of Urology

Guru Sonpavde, MD
Clinical Assistant Professor
Department of Medicine
Hematology & Oncology Section

Guest Faculty
Steven B. Brandes, MD
Associate Professor
Department of Surgery
Division of Urologic Surgery
Washington University School of Medicine in St. Louis
St. Louis, Missouri

Laura Hermer, JD, LLM
Research Professor and Visiting Assistant Professor
Health Law and Policy Institute
University of Houston Law Center
Houston, Texas

Celestia S. Higano, MD
Associate Professor
Departments of Urology and Medicine
University of Washington School of Medicine
Seattle, Washington

Aaron E. Katz, MD
Associate Professor
Department of Clinical Urology
Columbia University College of Physicians & Surgeons
New York, New York

Edmond T. Gonzales, Jr, MD
Professor
Chief, Pediatric Urology Service
Head, Department of Surgery
Texas Children’s Hospital

Donald P. Griffith, MD
Professor of Urology
Chief of Urology
Michael E. DeBakey Veterans Affairs Medical Center

Richard E. Link, MD, PhD
Associate Professor
Director, Division of Endourology and Minimally Invasive Surgery

Eric A. Jones, MD
Assistant Professor
Attending
Pediatric Urology Service
Texas Children’s Hospital

Seth P. Lerner, MD
Associate Professor
Beth and Dave Swalm Chair in Urologic Oncology
Deputy Chief of Urology
The Methodist Hospital

Timothy B. Boone, MD, PhD
Russell and Mary Hugh Scott Research Professor and Chair
Chief, Urology Service and Medical Director
Urodynamic Laboratory
The Methodist Hospital

Case Presentations ■ Video Presentations ■ Syllabus ■ Evaluation Information

Baylor College of Medicine

At the conclusion of the activity, the participant should be able to:
- Describe diagnostic and treatment strategies for some of the most common urologic problems faced by clinical urologists.
- Develop and implement strategies for the management of urologic disease.
- Apply state of the art techniques of laparoscopy into their minimally invasive surgery practice.
- Incorporate state of the art techniques of laparoscopy into their minimally invasive surgery practice and apply these as well as non-invasive ablative strategies for managing small renal masses.
- Discuss the impact of growth hormone and other physiologic changes in the aging male and the interrelationship of hypercholesterolemia, hypertension, and erectile dysfunction.
- Describe diagnostic and management algorithms for common pediatric urology problems.

**Faculty, topics, program schedule, and credit are subject to change.**

Audio or videotaping is prohibited without written permission from the Activity Director and the Office of Continuing Medical Education, Baylor College of Medicine, Houston, Texas.

As of the printing of this brochure, this activity is supported by educational grants from: Abbott Laboratories; Astellas Pharma US; AstraZeneca; Esprit Pharma; Indevus Pharmaceuticals; Mentor Corporation; Merck & Co., Inc.; Sanofi-Aventis US Inc.; TAP Pharmaceuticals.
Fee, Registration and Confirmation Information
Refer to the registration form for the fee schedule. Your registration will not be processed until payment is received. Your registration will be confirmed. If you have not received confirmation at least 5 business days before the activity start date, contact the Office of Continuing Medical Education (OCME) immediately.

If you plan to register on-site, contact OCME at least 24 hours in advance to confirm activity status and space availability. The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

To register/pay online, visit the activity website at http://cme.bcm.tmc.edu/1346.

Cancellation/Refund Policy
Requests for registration refunds must be in writing and received by the Office of Continuing Medical Education (OCME) at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a $50 administrative fee deducted from the registration fee paid to cover guarantees and other expenses. Requests should be mailed to the OCME or faxed to (713) 798-7955.

The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form followed by written notification. If an activity is cancelled, OCME’s liability is limited to the registration fee paid. Note: If payment is made by check, social security number is required to process refund.

Conference Location and Accommodations
Inn at Loretto
211 Old Santa Fe Trail
Santa Fe, New Mexico 87501
Fax: (505) 984-7964
Accommodations should be arranged directly with the Inn at Loretto Hotel. Please identify yourself with the Baylor Innovations in Urology Conference when making reservations in order to benefit from the special group rate ($229.00 single/double). Additional housekeeping and porterage fees apply. Rooms have been reserved at the special rate on a space available basis. The deadline to receive the special rate is Monday, August 28, 2006. A limited number of rooms have been reserved at the special conference rate – PLEASE BOOK EARLY.

Transportation
The Inn at Loretto is located 70 minutes from the Albuquerque International Airport. There are commuter flights available from Albuquerque to Santa Fe. Shuttle service to the hotel is available through Sandia Shuttle Express, (888) 775-5696. Reservations are required to guarantee seating. Round trip, prepaid rate is $45.00.
